

JOB OPPORTUNITY

Associate Programmer Analyst (Specialist)
Services Development Unit
Permanent-Full Time

The Engineering Division has an immediate opening for
Associate Programmer Analyst (Specialist)

The incumbent will be responsible for:

Functional areas of responsibility include, but may not be limited to:

- Help with development and integration applications using Client/Server, ERP, and web-based development tools
- Understand all phases of the Software Development Life Cycle with emphasis on systems analysis, design, and programming
- Knowledge of relational database models, including data models, data flows, and data administration
- Assist the unit to work with customers to identify and document business requirements
- Aid with the development and maintenance support for DTS help Desk, Service Desk, Change Management, and Asset Management using REMEDY application suite
- Adapt to changes within the organization
- Accept other duties as required in the unit

Desirable qualifications, skills and knowledge should include:

- Knowledge of client server and Web development
- Ability to complete changes and improvements to software development
- Knowledge of objected oriented programming techniques, structured programming techniques, as well as work flow practices.
- Knowledge of client server environment components, concepts, security, and maintenance
- Ability to create and program web-based applications
- Ability to program using Crystal Reports
- Knowledge of SQL and Windows 2000/2003 servers operating systems
- Ability to work independently and effectively in a team environment

Applications will be accepted from individuals currently in the Associate Programmer Analyst (Specialist) classification or who have transfer or list eligibility to these classifications.

Applications will be screened based on desirable qualifications and only the most qualified candidates will be scheduled for an interview. All appointments are subject to State Restriction of appointment (SROA) provisions and employees designated surplus. Interested applicants should submit a standard state application and resume to the address below. Final filing date: Open until Filled.
